

## How to Prepare for a Virtual Interview

BP is one of the world's leading international oil and gas companies. We provide customers with fuel for transportation, energy for heat and light, lubricants to keep engines moving and the petrochemicals products used to make everyday items as diverse as paints, clothes and packaging.

Each year BP opens its doors to the new generation of high achievers. We offer a range of programs where university students can hear from the brightest minds in BP and learn from their experience as leaders in a multi-national company, participate in trading simulations, or even be awarded a scholarship towards their studies. For more information and to apply, visit [www.bp.com/us-studentopps](http://www.bp.com/us-studentopps).

*Applications are open and will be accepted through March 16, 2017*

To prepare you for your application, please join our BP recruiters to learn about the best tips, tricks and practices to ace a virtual interview. We'll provide the tools for success so you are confident and prepared for your interview.
