

GROWTH:

EITP is focused on activities that bring the most return and the greatest impact. From the individual to the collective, we are committed to our growth as we excel as leaders, professional development specialists, and coaches. We use our strengths to deliver exceptional content, consulting, and professional development opportunities, all designed to inspire early interventionists to deliver impactful early childhood intervention practices. EITP shares knowledge openly and offers dynamic shared resources in multiple and varied evidence-informed, professional development opportunities. We are excited to achieve our goals because we know it directly impacts children and families.

BELONGING:

EITP's work starts within. Rooted in our hearts, every individual agrees to commit to live every day embodying joy and a sense of curiosity about the children and families served in our communities. We do this so our work, the environments we create, and the early interventionists we train and support, feel the passion behind everything we do. EITP offers *wholehearted* support to early interventionists by delivering invaluable professional development experiences that are accessible and welcoming. EITP cultivates a highly collaborative environment of belonging and connection among agencies, programs, partners and professionals so that together we create and deliver valuable services for the children and families in our communities.

SERVICE:

As advocates for inclusion and equal opportunities for every child and family, EITP forges new paths in early intervention practices to achieve results that matter. We offer compelling and fresh ideas to early interventionists so they feel empowered and supported in their work, reinforcing how they are making a difference in the lives of each and every child and family they encounter. Working from a place of confidence and courage, EITP's foundation of trust unites early interventionists in a shared mission, vision, and in achieving of meaningful goals. We influence and inspire our communities to bring awareness to the needs for early intervention, and to design exemplary experiences to meet those needs, to see children and families thriving and growing through the delivery of state-of-the-art and responsive recommended early intervention practices.
