ILLINOIS STATE GEOLOGICAL SURVEY

ISGS.ILLINOIS.EDU

The Illinois State Geological Survey (ISGS) is a premier state geological survey serving the needs of the public, government, and industry with earth science information and research relevant to natural resources, environmental quality, economic vitality, and public safety. ISGS is part of the Prairie Research Institute (PRI) at the University of Illinois at Urbana-Champaign, which is centrally located between Chicago, St. Louis, and Indianapolis.

APPLY BY MAY 15!

Visiting Scientific Specialist, Wetlands Geology

ISGS is seeking to hire a Visiting Scientific Specialist, Wetlands Geology to participate in specialized assessment and monitoring of the hydrogeology and geochemistry of wetlands, streams, bioswales and other related environments. This position is for a full-time specialist dedicated to field data collection and analysis to support Illinois state agencies under their environmental programs, including the Illinois Department of Transportation, Illinois Tollway, and Illinois Nature Preserves Commission. This position will support the analysis and reporting for compliance with various federal (e.g., Clean Water Act) and state regulatory programs. Position is based in Champaign, Illinois.
