

2022 Seasonal Biology Technician Position

Illinois River National Wildlife and Fish Refuge
19031 E CR 2110 N
Havana, Illinois 62644

Job Title: Biological Science Technician

Agency: U.S. Fish and Wildlife Service

Location: Work will take place near Meredosia, IL

Salary: Technician will earn \$15.47/hr

Job dates: July – September

Housing: Refuge bunkhouse available at a low monthly cost.

Job description: Two seasonal technicians are sought for invasive species control and forest habitat surveys. Technicians will survey and map Japanese hop (*Humulus japonicus*) using ArcGIS Collector and implement herbicide control. Technicians will also complete forest inventory surveys to inform restoration needs of bottomland forests. Applicants must be willing to work outdoors, both independently and with other people, and possess good communication skills.

Application deadline: June 27, 2022

To apply: Applications must be sent through USAjobs.gov
